

a stylish "drop-in" server system
that will suit any budget

PRO-ficient

HEATED DELI DISPLAY

the PRO-ficient HEATED DELI DISPLAY

The PRO-ficient Heated Deli Display represents the very best in modular design and functionality and can be used as a "drop in" unit to extend any servery layout you care to design. It can be fitted to any new or existing counter base or shopfitted unit and will add a touch of quality and style to any servery system.

Our stylish PRO-ficient units are completely self contained and designed to complement each other perfectly. When used in combination with other PRO-ficient units or as simple stand alone display, they can be relied on to perform well for many years.

Available in a range of sizes and finishes with many optional extras to extend functionality, the comprehensive PRO-ficient range includes: chilled and heated displays, chilled multi-decks, chilled fan blown decks and wells, chilled and heated deli units, heated bain marie units, heated ceramic hotplates, condiment and soup units.

These units comply in every respect with current CE and Food Hygiene regulations.

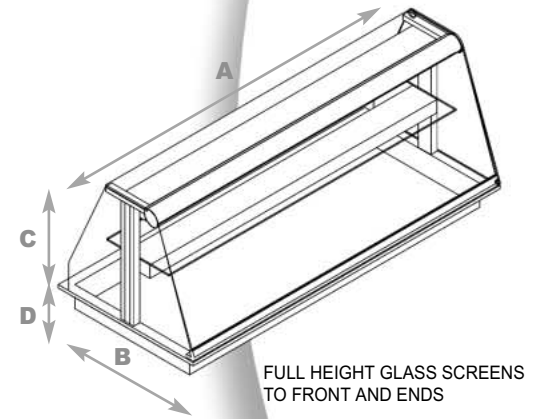

While all PRO-ficient units perform well and have been designed to meet client demands, PROMART recommends that a Bespoke Counter is still the best option in terms of longevity and aesthetics. PROMART reserves the right to modify designs and specifications at any time without notice.

Ideal for pastries, savouries and other bakery products, this unit allows food to be displayed and maintained at regulated heated temperatures at counter level.

The unit is also heated from above by steplessly variable 300 watt infra-red quartz halogen lights ensuring clean, attractive display of merchandise.

The full height glass front screen is hinged forward in order to facilitate easy maintenance and cleaning.

Available in a comprehensive range of multiple gastronorm size increments.

Optional extras:

- Glass edge protection
- Colour epoxy coated gantry
- Multi-functional digital controller
- Insulated end panels
- Granite trivets
- Tray Slide

HEATED DELI DISPLAY - No wastes are required with these units

Part N°	Capacity GN	Dim A mm	Dim B mm	Dim C mm	Dim D mm	Cut Out mm	Weight kg	Power	Wattage
